

added value of internet based communication: DOC.project digital workflow management: DOC.mobile

IT-services and SaaS by DOCby.net - no ifs and buts!

Whether you are project manager or builder:

you want to

- do a really good job
- adhere to deadlines
- pay attention to costs
- solve problems
- share information with local staff and worldwide business partners
- work with properly functioning systems
- stop working early from time to time ☺

REALITY VS WISHFUL THINKING

The truth is precisely the opposite. Unfortunately! We don't have to give examples. Everyone can speak from his or her own experience.

THIS IS WHERE WE COME IN

Your first thought might be: „.... Anyone can develop software! Internet based communication tools and workflow systems are ten a penny!”

FAR FROM IT!

We can do a lot to help here. We solve your PROBLEMS (paper- and email overload, redundancies, media discontinuities, lack of document history, loss of information, working on various plan versions, exploding costs, NO end of the working day).

WHAT CAN BE DONE NOW?

Even if your problem is still relatively small – let us know ! We offer:

- best prices an excellent support
- perfect familiarization by training courses + workshops
- XL-advantages in planning and implementation
- short response times and perfect administration
- safe, transparent, effective project communication
- guaranteed up-to-dateness of all documents
- 57 % less post-processing efforts

"DOCby.net provides you with excellent support. The system is adapting to the clients' needs - and not the other way around... The whole DOCby.net team makes you feel very well taken care of."

Dirk Mol Kentin, authorized signatory / branch manager,
ASSMANN BERATEN+PLANEN GmbH Frankfurt;
e. g. Hamburger Hochbahn, Schlossgalerie Rastatt etc.
